Sponsored by Discipleship and

Purpose: To provide adults with a tool to hide God's word in their hearts  
To strengthen the spiritual growth/discipleship of Adults  
To develop Bible Skills in Adults  
Strengthen family discipleship  
To help parents and grandparents pass down a Christian legacy in their families

There are different levels at which adults may participate in Adult Bible Drill.

## **Hiding God's Word—Scripture Memory level**

Adults will memorize the books of the Bible and then choose to memorize the Children's, Youth, or High School Verses for the year.

Suggestions—If you have a child/grandchild in one of these age brackets, memorize the verses they are memorizing in Bible Drill. For example, if you have a 5th grader, memorize the Children's Bible Drill verses for the year. If you have a 7th grader, you would memorize the Youth Bible Drill verses for the year, etc. This would promote more of a family approach to Bible Drill and will strengthen your family and assist your child/grandchild as they learn their verses.

If you do not have a child in Bible Drill, choose an age group. Most people would probably begin with Children's Bible Drill.

Be accountable. Have the Bible Drill leader or another leader such as your Sunday School teacher, discipleship teacher, etc. hold you accountable by listening to you quote your books of the Bible/verse and check them off.

Once you have memorized all your books and verses and have quoted them to a leader, you may contact DFM to obtain your certificate of achievement.

### **Drill Level—Scripture Memory and Participating in a Bible Drill**

Adults who have never done Bible Drill will memorize their books of the Bible, the Children's Bible Drill verses and drill with the Children's Bible Drill rules.

Adults—former Bible Drillers—Challenge them to drill on the Youth or High School Level.

Drilling is done on the Church Level only. Rules, Guidelines, Scoresheets are available per age group chosen on our website.
